Course Information

Item	Detail
Course Title	Conflict Management
Course Reference	TGS-2026066849
Skill	Conflict Management
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN: 201200696W)
Duration	1 day · 9:00am–6:00pm · 480 minutes = 420 minutes training + 60 minutes assessment (excluding a 60-minute lunch)
Mode of Training	Classroom facilitated training
Instructional Methods	Interactive presentation (160 min) · Role-play (160 min) · Discussions (100 min)
Slide Deck	Conflict Management-v1.0.pptx · 117 slides
Equipment	Presentation computer, projector, timer, printed or digital activity packs (labs/), role cards, observer checklists
Trainer	Dr. Alfred Ang

Learning Outcomes

By the end of this course, participants will be able to:

- LO1: Analyse workplace conflict types, escalation stages, and management styles to select appropriate conflict resolution approaches for organisational settings.
- LO2: Apply active listening, empathy, reframing, and non-verbal communication techniques to de-escalate and manage conflict conversations effectively.
- LO3: Apply interest-based negotiation and consensus-building techniques to facilitate collaborative problem-solving and overcome resistance among conflicting parties.
- LO4: Evaluate and apply structured conflict resolution and mediation frameworks to develop actionable plans aligned with organisational goals.
- LO5: Develop organisational guidelines and leadership strategies to prevent recurring conflicts and embed constructive conflict management practices.

Assessment

- Written Assessment (WA) — open-ended short-answer questions assessing LO1 and LO5, 30 minutes, open book.
- Live Role Play (RP) — an individual, assessor-observed workplace conflict role play assessing LO2, LO3 and LO4, 30 minutes.
- Assessment block: 5:00pm–6:00pm (WA 5:00pm–5:30pm, Live Role Play 5:30pm–6:00pm).
- Briefing for Assessment: Slide 12; Assessment: Slide 13; end-of-day reminder: Slides 110–117.
- WA: individual paper under invigilated conditions, marked with the approved answer guide and question-level rubric.
- Live Role Play: each learner performs individually with the assessor using a standardised scenario and role brief; the assessor marks against the competency checklist and analytic rubric.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- Grading: Competent (C) / Not Yet Competent (NYC). A minimum of 75% attendance is required to be eligible for assessment and funding. Learners must be assessed Competent in both instruments.
- Courseware and WA submission are on the LMS: https://lms-tms.tertiaryinfotech.com/

Daily Schedule

Day 1 — Recognise, de-escalate, negotiate, resolve and prevent workplace conflict

Time	Duration	Topic / Activity	Method	Slides
9:00am–9:15am	15 min	Welcome, introductions, ground rules, learning outcomes and mandatory AM digital attendance	Interactive presentation	Slides 2–18
9:15am–10:30am	75 min	Topic 1 — Understanding Workplace Conflict and Management Styles: conflict types, escalation cycle, warning signs, Thomas-Kilmann modes. Activity 1 — Conflict Signal Triage at LionCity Retail; Activity 2 — Conflict Style Choice Clinic at BrightWorks Digital	Interactive presentation · role-play · discussion	Slides 19–38
10:30am–10:40am	10 min	Tea break	—	—
10:40am–11:55am	75 min	Topic 2 — Communication Techniques for Diffusing Tensions: active listening, empathy, reframing, non-verbal cues, de-escalation. Activity 3 — Active Listening and Reframing at HarborLink Logistics	Interactive presentation · role-play · discussion	Slides 39–53
11:55am–12:30pm	35 min	Topic 3 (part 1) — Negotiation and Consensus-Building: positions and interests, BATNA, reservation points, ZOPA, option generation	Interactive presentation · role-play · discussion	Slides 54–59
12:30pm–1:30pm	60 min	Lunch break	—	—
1:30pm–2:10pm	40 min	Topic 3 (part 2) — Activity 4 — Interest-Based Negotiation at CarePoint Clinics: resistance, impasse, consensus testing and agreement wording. PM digital attendance	Interactive presentation · role-play · discussion	Slides 60–68
2:10pm–3:25pm	75 min	Topic 4 — Achieving Resolution and Protecting Organisational Interests: structured resolution, mediation, option evaluation, action planning. Activity 5 — Mediated Conversation at Mosaic Creative; Activity 6 — Policy, Ethics and Escalation at Meridian Hospitality	Interactive presentation · role-play · discussion	Slides 69–88
3:25pm–3:35pm	10 min	Tea break	—	—
3:35pm–4:50pm	75 min	Topic 5 — Sustaining a Conflict-Resilient Organisation: guidelines, escalation protocols, psychological safety, root-cause review, monitoring. Activity 7 — Leader Coaching Huddle at NovaTech Services; Activity 8 — 30-Day Resolution Review at GreenGrid Engineering	Interactive presentation · role-play · discussion	Slides 89–109
4:50pm–	10 min	Course wrap-up, briefing for assessment,	Interactive	Slides 110

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

5:00pm		TRAQOM and assessment digital attendance	presentation	–117
5:00pm–5:30pm	30 min	Written Assessment (WA) — open-ended short-answer questions on LO1 and LO5, 30 minutes, open book	Assessment	—
5:30pm–6:00pm	30 min	Live Role Play (RP) — individual observed role play on LO2, LO3 and LO4, 30 minutes	Assessment	—

Counted training and assessment time: 480 minutes (8.0 hours) — 420 minutes training plus 60 minutes assessment; lunch excluded. Tea breaks are taken within the training time.

Topic-by-Topic Facilitation Notes

Topic 1 — Understanding Workplace Conflict and Management Styles · Slides 19–38

LO1: Analyse workplace conflict types, escalation stages, and management styles to select appropriate conflict resolution approaches for organisational settings.

Sub-topics (Course Proposal):

- Sources and types of workplace conflict: task, process, relationship and values conflict
- Conflict escalation cycle, triggers, warning signs and organisational impact
- Thomas-Kilmann conflict modes: competing, collaborating, compromising, avoiding and accommodating
- Situational criteria for selecting an appropriate conflict management approach

Concept teaching — Slides 19–26 (divider, key concepts and 6 teaching slides):

- Four Types of Workplace Conflict — comparison table
- Conflict Is Data Before It Becomes Damage — concept tiles
- The Conflict Escalation Cycle — process map (reveal stage by stage)
- Thomas-Kilmann Modes on Two Dimensions — data chart with insight
- Five Modes — Use Well, Overuse Badly — comparison table
- Selecting an Appropriate Approach — decision map

Activity 1 — Conflict Signal Triage at LionCity Retail · Slides 27–31

Item	Detail
Objective	Classify the conflict type and escalation stage from early warning signs, assess organisational impact and decide a safe first response.
Method	Case study · small-group analysis · 25 minutes
Output	A signal log, a conflict-type and escalation-stage map, and a first-response decision with an escalation boundary.
Materials	Signal log · conflict-type and stage map · triage matrix — labs/Activity-01-Conflict-Signal-Triage-at-LionCity-Retail/
Timing	4 min individual case read · 5 min signal log and fact/claim separation · 5 min conflict type and stage mapping · 4 min impact rating and risk screen · 4 min first response and escalation boundary · 3 min 60-second briefing and peer challenge
If the group gets stuck	Everything looks like 'attitude': Ask: what would a camera have recorded? Rewrite each label as behaviour, context and frequency. · Group jumps to a joint meeting: Re-run the risk screen. A joint meeting is unsafe if retaliation or power concerns

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

	are unresolved. · Stage is unclear: Stages overlap. Record the earliest stage with evidence and the trigger that would move it forward.
Debrief standard	The triage separates facts from assumptions, classifies type and stage with evidence, screens policy risk and selects a proportionate next action.

Facilitation: brief the scenario and roles from the slides; learners follow the step-by-step procedure in the Learner Guide and the activity pack. Debrief against the stated standard, not personal preference.

Activity 2 — Conflict Style Choice Clinic at BrightWorks Digital · Slides 32–36

Item	Detail
Objective	Evaluate the five Thomas-Kilmann modes against situational criteria and justify a staged conflict-management approach.
Method	Case study · decision clinic · 25 minutes
Output	A Thomas-Kilmann style decision matrix with a staged response rationale (today and the next two weeks).
Materials	Style decision matrix · situational criteria scorecard — labs/Activity-02-Conflict-Style-Choice-Clinic-at-BrightWorks-Digital/
Timing	3 min frame the issue and shared interests · 5 min rate situational criteria · 6 min benefits and risks of the five modes · 3 min non-negotiables and authority · 5 min immediate and follow-on modes · 3 min stress test and gallery comparison
If the group gets stuck	'Collaborate' for everything: Collaboration needs time and shared goals. Ask what must be decided today and by whom. · Security traded for speed: Return to the non-negotiables list — a data-exposure risk is not a bargaining chip. · No follow-on plan: Add a second stage: who meets, when, and how the relationship cost of today's decision is repaired.
Debrief standard	The recommendation links each mode choice to evidence about safety, stakes, relationship, power, time and authority, and stages the response.

Facilitation: brief the scenario and roles from the slides; learners follow the step-by-step procedure in the Learner Guide and the activity pack. Debrief against the stated standard, not personal preference.

Close the topic with the 'Why it matters' statement and the recap slide (Slide 38).

Topic 2 — Communication Techniques for Diffusing Tensions · Slides 39–53

LO2: Apply active listening, empathy, reframing, and non-verbal communication techniques to de-escalate and manage conflict conversations effectively.

Sub-topics (Course Proposal):

- Active listening, paraphrasing, questioning and summarising
- Emotional cues, empathy and perspective-taking in conflict conversations
- Reframing, neutral language and separating people from the problem
- Non-verbal communication, emotional self-regulation and de-escalation techniques

Concept teaching — Slides 39–46 (divider, key concepts and 6 teaching slides):

- The Active Listening Loop — process map (reveal stage by stage)
- Questions That Open vs Questions That Close — comparison table
- Empathy and Perspective-Taking — concept tiles
- Reframing Blame into Interests — comparison table
- Non-Verbal Communication in Conflict — concept tiles

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- A De-escalation Sequence — process map (reveal stage by stage)

Activity 3 — Active Listening and Reframing at HarborLink Logistics · Slides 47–51

Item	Detail
Objective	Apply active listening, empathy, reframing and non-verbal techniques to de-escalate a tense conversation and agree a next step.
Method	Role play · triads with observer · 35 minutes
Output	A listening log with paraphrases, emotion reflections and reframes, plus an observer's de-escalation sheet and an agreed next step.
Materials	Listening log · reframing table · non-verbal observation sheet — labs/Activity-03-Active-Listening-and-Reframing-at-HarborLink-Logistics/
Timing	4 min preparation and self-regulation · 10 min conversation 1 — priya · 10 min conversation 2 — daniel (rotate roles) · 6 min reframing table and agreed next step · 5 min observer feedback and debrief
If the group gets stuck	Listener starts problem-solving: Pause. Paraphrase and reflect first — solutions offered too early sound like a verdict. · Speaker escalates: Lower volume and pace, acknowledge the emotion, offer a short pause; do not argue facts while flooded. · Reframe sounds like spin: Keep the speaker's meaning. A reframe names their real need, not a softer version of what you prefer.
Debrief standard	Both conversations show accurate paraphrasing, emotion reflection, neutral reframes and calm non-verbal behaviour, ending with an agreed, specific next step.

Facilitation: brief the scenario and roles from the slides; learners follow the step-by-step procedure in the Learner Guide and the activity pack. Debrief against the stated standard, not personal preference.

Close the topic with the 'Why it matters' statement and the recap slide (Slide 53).

Topic 3 — Negotiation and Consensus-Building Strategies · Slides 54–68

LO3: Apply interest-based negotiation and consensus-building techniques to facilitate collaborative problem-solving and overcome resistance among conflicting parties.

Sub-topics (Course Proposal):

- Positions, interests and needs in interest-based negotiation
- BATNA, reservation points and zones of possible agreement
- Collaborative problem-solving and option-generation techniques
- Managing resistance, power imbalances and negotiation impasses
- Consensus testing, agreement wording and commitment building

Concept teaching — Slides 54–61 (divider, key concepts and 6 teaching slides):

- Position Bargaining vs Interest-Based Negotiation — comparison table
- BATNA, Reservation Point and ZOPA — concept tiles
- Worked Example — Finding the ZOPA at CarePoint — data chart with insight
- Interest-Based Negotiation in Five Moves — process map (reveal stage by stage)
- Overcoming Resistance, Power Imbalance and Impasse — concept tiles
- Testing Consensus — Gradients of Agreement — comparison table

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Activity 4 — Interest-Based Negotiation at CarePoint Clinics · Slides 62–66

Item	Detail
Objective	Negotiate a staffing agreement using interests, BATNA, reservation points and objective criteria, overcome an impasse and test consensus.
Method	Role play · negotiation pairs with observer · 40 minutes
Output	A negotiation canvas (positions, interests, BATNA, reservation point), an option scorecard and a consensus-tested written agreement.
Materials	Negotiation canvas · ZOPA line · option scorecard · agreement template — labs/Activity-04-Interest-Based-Negotiation-at-CarePoint-Clinics/
Timing	6 min separate preparation on the canvas · 7 min shared problem and interests · 6 min objective criteria and zopa · 7 min generate option packages · 5 min impasse, scoring and trades · 9 min consensus, agreement and debrief
If the group gets stuck	Splitting the difference at once: Stop. Compromise before exploring interests leaves value on the table — generate packages first. · No overlap found: Re-check BATNAs and add variables (timing, pilot, conditional approval); if still none, escalate with data. · One party dominates: Use the observer to time-box turns, paraphrase the quieter party and return to the agreed criteria.
Debrief standard	The agreement sits inside the ZOPA, explains interests, criteria and trade-offs, survived an impasse and was consensus-tested with owners, dates and a review trigger.

Facilitation: brief the scenario and roles from the slides; learners follow the step-by-step procedure in the Learner Guide and the activity pack. Debrief against the stated standard, not personal preference.

Close the topic with the 'Why it matters' statement and the recap slide (Slide 68).

Topic 4 — Achieving Resolution and Protecting Organisational Interests · Slides 69–88

LO4: Evaluate and apply structured conflict resolution and mediation frameworks to develop actionable plans aligned with organisational goals.

Sub-topics (Course Proposal):

- Structured conflict-resolution process: intake, issue mapping, option development and agreement
- Mediation stages, impartial facilitation and boundary management
- Evaluating resolution options against policy, risk, fairness and organisational goals
- Action planning, accountability, documentation and follow-up

Concept teaching — Slides 69–76 (divider, key concepts and 6 teaching slides):

- A Structured Conflict-Resolution Process — process map (reveal stage by stage)
- The Stages of Mediation — process map (reveal stage by stage)
- Impartial Facilitation and Boundary Management — concept tiles
- Evaluating Resolution Options — comparison table
- Mediate, or Route to the Formal Process? — decision map
- Action Planning, Accountability and Documentation — concept tiles

Activity 5 — Mediated Conversation at Mosaic Creative · Slides 77–81

Item	Detail
Objective	Run a structured mediation, evaluate options against policy, risk, fairness and

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

	organisational goals, and record an actionable agreement.
Method	Role play · mediation triads with observer · 35 minutes
Output	A mediation record (ground rules, issue map, options, evaluation matrix) and a written action plan with owners, dates, evidence and review.
Materials	Mediation record · option evaluation matrix · action-plan template · observer checklist — labs/Activity-05-Mediated-Conversation-at-Mosaic-Creative/
Timing	4 min suitability, scope and ground rules · 8 min opening accounts with paraphrase · 5 min issue and interest map · 6 min option generation · 5 min option evaluation matrix · 4 min action plan · 3 min observer feedback
If the group gets stuck	Mediator takes a side: Return to balanced summaries; give the other party comparable time and an equivalent question. · Options are vague: Ask 'what will we see differently at the next review?' and add an owner and date. · Party wants a verdict: Restate the mediator's role: the process is shared, the decision is theirs within policy limits.
Debrief standard	The mediation follows the structured stages, stays impartial, evaluates options against organisational criteria and ends with a balanced, observable action plan.

Facilitation: brief the scenario and roles from the slides; learners follow the step-by-step procedure in the Learner Guide and the activity pack. Debrief against the stated standard, not personal preference.

Activity 6 — Policy, Ethics and Escalation at Meridian Hospitality · Slides 82–86

Item	Detail
Objective	Decide when mediation is inappropriate, route a concern to the correct policy channel and protect people, evidence and confidentiality.
Method	Case study · routing decision · 20 minutes
Output	An escalation decision record with the routing choice, interim protection plan, confidentiality boundary and a neutral acknowledgement message.
Materials	Policy-routing worksheet · evidence and privacy checklist — labs/Activity-06-Policy-Ethics-and-Escalation-at-Meridian-Hospitality/
Timing	3 min read and risk categories · 4 min mediation suitability and route · 4 min interim protection · 3 min evidence and privacy · 4 min neutral reply · 2 min peer check
If the group gets stuck	Group starts investigating: Stop at routing. Fact-finding belongs to the impartial owner named in policy. · Promises total secrecy: Replace with 'shared only with those who need to know to handle it fairly'. · Interim step penalises Farah: Re-check: protective measures must not disadvantage the person who reported.
Debrief standard	The response routes the concern to the correct policy channel, protects safety and fairness, limits data access and defines non-retaliation follow-up.

Facilitation: brief the scenario and roles from the slides; learners follow the step-by-step procedure in the Learner Guide and the activity pack. Debrief against the stated standard, not personal preference.

Close the topic with the 'Why it matters' statement and the recap slide (Slide 88).

Topic 5 — Sustaining a Conflict-Resilient Organisation · Slides 89–109

LO5: Develop organisational guidelines and leadership strategies to prevent recurring conflicts and embed constructive conflict management practices.

Sub-topics (Course Proposal):

- Workplace conflict-management guidelines, roles and escalation protocols
- Leadership behaviours that support psychological safety and constructive dialogue
- Root-cause review and preventive action for recurring conflict patterns

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- Monitoring indicators, feedback channels and periodic review of conflict-management practices

Concept teaching — Slides 89–97 (divider, key concepts and 7 teaching slides):

- What a Conflict-Management Guideline Contains — concept tiles
- A Tiered Escalation Protocol — process map (reveal stage by stage)
- Leader Behaviours that Build Psychological Safety — concept tiles
- The COACH Conversation for Leaders — process map (reveal stage by stage)
- Monitoring Indicators — GreenGrid 30-Day Review — data chart with insight
- Weak Follow-Up vs Effective Review — comparison table
- Root-Cause Review and Preventive Action — process map (reveal stage by stage)

Activity 7 — Leader Coaching Huddle at NovaTech Services · Slides 98–102

Item	Detail
Objective	Coach a team leader to build psychological safety and constructive dialogue, and turn the coaching into a team norm.
Method	Role play · coaching triads · 25 minutes
Output	A completed COACH planner, an observed coaching dialogue, and a team norm with two leader behaviours and a review date.
Materials	COACH planner · psychological-safety behaviour card · observer sheet — labs/Activity-07-Leader-Coaching-Huddle-at-NovaTech-Services/
Timing	4 min pattern review and coach preparation · 3 min contract and opening · 10 min observed coaching dialogue · 4 min commitments and team norm · 4 min observer feedback
If the group gets stuck	Coach gives the answers: Ask before telling — 'What would you try?' builds ownership and capability. · Plan only fixes Alex: Add at least one change in leader behaviour or team system. · Behaviours are vague: Make them observable: 'ask for two concerns before every decision' rather than 'be more open'.
Debrief standard	The coaching keeps ownership with Jordan, commits to observable psychological-safety behaviours and a team norm, and sets a review date.

Facilitation: brief the scenario and roles from the slides; learners follow the step-by-step procedure in the Learner Guide and the activity pack. Debrief against the stated standard, not personal preference.

Activity 8 — 30-Day Resolution Review at GreenGrid Engineering · Slides 103–107

Item	Detail
Objective	Monitor resolution effectiveness with balanced indicators, run a root-cause review and design preventive controls and guideline updates.
Method	Case study · review panel · 30 minutes
Output	A 30-day review scorecard, a root-cause summary and a prevention plan with owners, triggers and a guideline update.
Materials	Review scorecard · root-cause template · prevention-plan template — labs/Activity-08-30-Day-Resolution-Review-at-GreenGrid-Engineering/
Timing	3 min restate agreement · 4 min balanced indicators · 6 min evidence review · 6 min voices, side effects and verdict · 5 min root-cause review · 6 min prevention plan, owners and triggers
If the group gets stuck	'It's solved — they get along': Relationship repair is one indicator. Check the work, process and risk measures too. · All late changes treated as breaches: Separate safety-critical exceptions from non-compliance; design a legitimate exception route. · Controls have no owner: An unowned control does not exist — name a role, a date and the indicator that proves it works.
Debrief standard	The review reaches an evidence-based verdict, identifies the system cause and

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

	adds preventive controls with owners, indicators, triggers and a review cadence.

Facilitation: brief the scenario and roles from the slides; learners follow the step-by-step procedure in the Learner Guide and the activity pack. Debrief against the stated standard, not personal preference.

Close the topic with the 'Why it matters' statement and the recap slide (Slide 109).

Resources and Trainer Preparation

- Print one activity pack per group from labs/ (INSTRUCTIONS, WORKSHEET, CHECKLIST); hand each role-player only their own role card.
- Prepare a visible timer; the day's timing is tight — keep each activity to its stated minutes.
- Set the psychological-safety boundary at the start: fictional cases only, no disclosure of real colleagues, anyone may pause or switch roles.
- Have the Written Assessment papers, the Live Role Play scenario and role brief, assessor checklists and the Assessment Summary Record ready before 5:00pm.
- Display the SSG digital-attendance QR codes for AM, PM and Assessment; remind learners to complete TRAQOM on the LMS.
- This course provides management guidance, not legal advice — direct real cases to organisational policy and professional advice.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg
